## THE CONTRACT: MOBILE PLANT, SITE AND WORKSHOP SERVICES

Bis has provided mobile plant and site services, including the supply of key primary dozers for stockpile management, to AGL's Bayswater and Liddell power stations since 1998.

As part of the contract, Bis supplies and maintains D11 size dozers for stock pile management at Bayswater and Liddell power stations, along with supporting items of plant including loaders, cranes, tippers, forklifts, bobcats, ATVs and table top trucks. A casual hire fleet is also available and cross hire options are available when required.

Bis also provides an onsite fully equipped RMS accredited workshop to service and maintain the 100+ light vehicles, 4WDs, ATVs and ETVs that make up the AGL Macquarie fleet, as well as trailers, stationary engines and pumps. This includes weekly fuel deliveries and dust suppression services as needed.

## SCOPE OF SERVICES

» Supply service and maintain plant

» Tyre maintenance

» Wheel alignment and balancing

» Fuel delivery

» Dust suppression

» Certified RMS Rego Inspection station.

» 24/7 on call service supporting Bis and AGL plant.

## PROJECT DESCRIPTION

AGL Macquarie is one of Australia's major electricity generators. Around 620 people work at its 2,640 MW Bayswater power station and 2,000 MW (available 1,680 MW) Liddell power station.

AGL Macquarie also operates the 50 MW Hunter Valley gas turbines.

## KEY ACHIEVEMENTS:

### Long-term Partnership

We are proud to have been part of the NSW operations since 1998, working in collaboration with the AGL Macquarie team to deliver tangible efficiency and productivity benefits.

### Impeccable Safety Record

A further reason to be proud too is an impeccable record of nil LTI during the 25 years! What an achievement, what a site and what a team!
