

Supporting the Harry Perkins Institute

Giving back to the community and supporting a culture of generosity is very important to the people of WA, hence our philosophy that cancer research is so important to everyone in the broader community.

That's why, after successful rides in 2021 and 2022, Team Bis is returning to raise money for the Harry Perkins Institute of Medical Research by taking part in the MACA Cancer 200 Ride for Research this October.

Why join team Bis:

Directly contribute to raising over \$75,000 each year for the Harry Perkins Institute of Medical Research

Position yourself alongside Bis in an event heavily participated in by other companies in our industry

Expose your brand to our 23k social media following and 1.3k workforce across Australia and Indonesia

Give back to the WA community.

Want to know more about the race and the cause?

cancer200.org.au

How your sponsorship can make a difference

Helps to continue research such as honey-bee venom for breast cancer that's been proving <u>successful</u> in the lab.

Helps to sequence cancer tumours into indivuidal parts to assist in new treatment discovery.

Helps progressing promising drugs from the benchtop to clinical trials.

Every donation counts.

About Bis

Bis is a leading resources logistics company, providing innovative logistics, materials handling and specialised equipment solutions to the global mineral resources sector.

Since 1915, Bis has built a reputation as a leader in efficiently moving large volumes of raw materials and commodities through the full mining value chain, by applying patented solutions, advanced technology and deep industry experience.

Today, we haul, transport, process and handle millions of tonnes of raw materials and commodities for our customers every year.

We have grown our business alongside yours, focusing on proprietary technology solutions designed to make your operations more productive, more efficient and reassuringly safe. Innovation and problem-solving are in our DNA.

We aspire to serve our customers globally and to innovate every day - lifting safety, productivity and sustainability.

That's how we help our customers to **Deliver Every Day.**
